Summary/Purpose: Employment regulations for international students

International students in F or J status are limited to 20 hours of work per week while school is in session. Work must be on-campus. Work required for assistantships counts toward the 20 hour limit. Hours are counted each week and may not be averaged. For example working 15 hours one week and 25 the next is not allowed. J-1 students must receive written permission from the Office of International Programs prior to beginning work.
