Cable TV

Summary/Purpose: This policy explains and clarifies Student Housing and Residence Life’s expectations and resources regarding cable television access in the residence halls and the Northgate Apartments.

Cable TV is available to all on-campus students who live in the residence halls or the Northgate Apartments. Basic cable service is included in the room rent. Students are responsible for providing cable connector wire from the outlet to the TV. Premium cable services can be purchased from the Telecommunications Center. For more information, please visit their office in Baxter Hall or call (662) 915-5922. To report cable problems, contact the Telecommunications Center by calling (662) 915-5922. On weekends, please notify your residence hall director or RA if there is a problem. In accordance with the FCC regulations and our cable contract, no splicing or splitting of cable to other rooms is permitted. Should the university face fines or other action as a result of FCC regulations because of a student found splicing cable, we reserve the right to seek appropriate action and restitution. According to FCC regulations, fines can be up to $1,000.00 per occurrence.
