Cable TV

Summary/Purpose: This policy explains and clarifies Student Housing and Residence Life’s expectations and resources regarding cable television access in the student residences.

Cable TV is available to all on-campus students who live in the residence halls or the apartments. Basic cable service is included in the room rent. Students are responsible for providing cable connector wire from the outlet to the TV. Premium cable services can be purchased from the Telecommunications Center. For more information, please visit their office in Baxter Hall or call (662) 915-5922. To report cable problems, contact the Telecommunications Center by calling (662) 915-5922. On weekends, the residence hall director or RA should be notified if there is a problem. In accordance with the FCC regulations and our cable contract, no splicing or splitting of cable to other rooms is permitted. The University will seek appropriate action and restitution due to the splicing of cable by students. FCC regulations dictate that fines of up to $1000 may be assessed for each occurrence. Please be aware that Radio and TV antennas and satellite dishes are not allowed.
