Disbursement of Financial Aid Funds

Summary/Purpose: The disbursement of financial aid funds.

The Office of Financial Aid will begin to disburse those funds that are ready for disbursement the day before the first day of class. No funds including state aid programs and federal aid will be disbursed before they have been authorized and received from the funding source.

For student financial aid purposes, the university’s Office of Financial Aid considers Wintersession as a part of the spring semester. Awarding and disbursement of aid will be based on the combined number of hours in which students are enrolled.
