The University of Mississippi

Travel Authorization

Summary/Purpose: When a travel authorization is required.

1. In-state and out-of-state travel to a convention, association, or meeting. Section 25-1-83 of the Mississippi Code requires written approval from the department head for employee attendance at any convention, association, or meeting in order for expenses to be reimbursed. A convention, association, or meeting is any program which is sponsored by a local, regional, or national organization to conduct an annual meeting, share information, present research papers, augment professional development, etc. Participation involves payment of a fee (registration, conference, tuition, etc.) to the sponsoring program.

The traveler’s department head should approve the authorization at least one week before the departure date. The Chancellor must approve authorization forms for the Vice Chancellors.

2. International Travel has been defined by the State of Mississippi as travel outside of the continental United States. Canada, Hawaii, Puerto Rico and Mexico are considered International Travel. The employee’s Vice Chancellor, the Chancellor, and the Office of Procurement Services must sign the authorization form prior to the trip taking place. Coordination between the offices involved is important to insure compliance with state law. Travel to Alaska is considered within the continental limits of the United States and meals would be reimbursed at the maximum state reimbursement rate allowed.

Before making a trip where authorization is required, the employee should have an authorization number verifying approval. Failure to obtain authorization when required will cause inability to reimburse expenditures.
